## Legacy Giving

### One Gift, A Lifetime of Investment

A legacy gift allows you to make a lasting impact on your loved ones and the causes you care about through thoughtful estate planning. By including Conway Regional Health Foundation in your will or beneficiary designation of specific assets, you can help ensure a healthier future for our community—creating a legacy of care for generations to come.

“Having an estate plan gives us peace of mind, knowing our funds will support causes we believe in and trust. Conway Regional provides the best health care in the region, and we want our children and grandchildren to recognize it as their primary health care facility. It’s local and ours!”

— Bill & Susan Farris

“There is no such thing as a self-made man or, in this case, a self-made couple. Every successful person has had help somewhere, somehow. This community has helped us be successful, and giving to the Foundation as a legacy gift allows us to make an impact long after we are gone to a community we care deeply about.”

— Granger & Jan Davis

## HEALTH DISPARITY FUND

- 14% of patients struggle to afford utilities
- 18.6% of Arkansans are impacted by food insecurity
- 1 in 4 patients are unable to afford the cost of medication or equipment resulting in readmission to the hospital
- Limited transportation affects access to medical care

*Since its launch in June 2024, the Health Disparity Fund has impacted 102 families.*

The Conway Regional Health Disparity Fund aims to support patients who face significant financial and personal challenges. Beyond medical needs, patients often struggle with housing, food insecurity, and medication costs.

**71** patients received essential medication support

**3** homeless patients were provided hotel stays for their recovery

More than **30** patients received meals ensuring adequate nutrition during recovery

## SUPPORTER SPOTLIGHT:

### Randy and Amber Milligan

During the inaugural Conway Regional Giving Day, Randy and Amber Milligan inspired generosity by providing \$20,000 matching gift, doubling the impact of every donation. Their incredible support made every gift go twice as far in strengthening healthcare services at Conway Regional.

Randy and Amber shared, "We believe in supporting the health and well-being of our community. By contributing to the Health Foundation, we help ensure access to high-quality medical care, facility improvements, equipment, and other vital resources for the hospital. Our donation enables the hospital to continue its essential work, improving lives, and fostering a healthier future for everyone."

## FUNDING THE NEEDS OF THE COMMUNITY

Restore, the new medical detox unit, fully funded by philanthropy, will address critical needs in Faulkner County and the broader Arkansas community. Serving an estimated 419 patients annually, the unit will offer 24-hour admissions to medically stabilize individuals and support their transition to rehabilitation or mental health treatment.

Only **21** medical detox facilities in Arkansas

Only **9** offer inpatient services

**No other facility** offers 24-hour admission

*"This unit is a testament to what is possible when a community comes together to support those in need. Thanks to philanthropy and strong partnerships, individuals struggling with addiction have immediate access to the medical care they need to detox safely and transition into long-term treatment. Conway Regional is committed to saving lives by providing this need in our community's health and well-being."*

— **Melanie McCarty**

Director of Restore

## MOBILE HEALTH UNIT

Funded in part by the Arkansas Duck Derby, the Conway Regional Mobile Health Unit will increase access to health care in rural areas across Central Arkansas. Designed to meet the unique needs of each community it serves, the unit is equipped with two exam rooms, a lab, triage and intake area, a wheelchair-accessible entrance, and a restroom. This mobile resource allows Conway Regional to deliver high-quality, patient-centered care directly to underserved populations, removing barriers and promoting healthier communities.

## SUPPORTING STUDENT SCHOLARSHIPS

Conway Regional Health Foundation awarded **\$89,500** in scholarships to **39 students** pursuing a health related career.

*"As a single mother, returning to school is a step toward a better future for my family. Balancing classes, clinical hours, and work has meant reduced income, making this scholarship invaluable. It not only helps with tuition but also ensures I can cover essential living expenses like food and gas. I am deeply grateful for this opportunity and the support it provides my family."*

— **Felica Allan**, Eleanor Duncan Nursing Endowed Scholarship
