

**CONWAY REGIONAL HEALTH SYSTEM  
CLINICAL LABORATORY**

**STAT Test List**

POLICY

Certain tests performed by Conway Regional Clinical Laboratory can be ordered with a priority of STAT. This priority should be reserved for emergency patient statuses that are of a life threatening nature. Refer to Turn-Around Guidelines policy for general expectations concerning length of turn-around-time for the various priority codes of testing. Listed below are the tests that are available on a STAT basis.

Hematology

- BHCG, urine or serum(pregnancy)
- CBC with differential
- Hemogram (CBC no diff)
- CSF and Body Fluid cell counts
- Hemoglobin and Hematocrit
- Platelet count
- Prothrombin time (PT)
- Partial thromboplastin time (PTT)
- Fibrinogen
- D-Dimer
- urinalysis
- fecal occult blood

Chemistry

Acetaminophen	drug of abuse screen
Acetone	electrolytes-Na, K, CL
albumin	glucose
alcohol - medical	glucose - CSF or fluid
alkaline phosphatase	GT (GGT)
ALT (GPT or SGPT)	LDH (lactate dehydrogenase)
amylase	magnesium
AST (GOT or SGOT)	phosphorous
bilirubin, total	protein - serum or fluid or CSF
BUN (blood urea nitrogen)	salicylate
calcium	lipase
CK or CPK (creatine kinase)	creatinine
CO2	myoglobin

Special Chemistry  
carbamazepine (tegretol)  
CKMB  
digoxin  
gentamycin  
phenobarbital  
phenytoin (dilantin)  
theophylline  
troponin, quantitative

Microbiology  
gram stain

Blood Bank - all services
